1. JavaScript library

```
- JavaScript library : JavaScript
                                                                   JavaScript
                             가
                                                   가
                                                              lib rary
                                                                                                가 가
- JavaScript library
    pro to type.js:
                                                      UΙ
    YUI: A jax, CSS
? Dojo:
                                               가
  Query:
                                                            ( , U I
                                                                                            )
  video.js, SoundM anager2, paper.js, Rapha e l_{D3} ...
2. Query
-Query
          DOM
   CSS
    A jax
     Query plug-in
3. Query
- Query
                     : $(), Query()
- Query
                              : var se lected E lem ents = $ ("p");
                             : $ ("# firstline") addC lass("se lect");
                         : $("w ise")addC lass("se lect");
    C lass
    CSS
                          : $ ("p a.refer") addC lass("select");
- CSS3
                                     : :first-ch ild (), :last-ch ild ()
             /
                              : nth-child(n)
```
